

Don't Forget to Accessorize!

The AMS 2140 Machinery Health™ Analyzer comes equipped with the technology and embedded intelligence that will help you increase reliability in your facility. But it takes the right accessories to unlock the untapped potential of your investment.

Featured Accessories	Part #	Description
	A40ADPTR	Simultaneously collect four-channel acceleration data for rolling element bearings analysis, or four-channel volts data for sleeve bearings analysis from a single input adapter by simply turning it over and using the appropriate side. Both simultaneous 4-channel analysis techniques can also be with phase signals on the 5th input to allow for the most comprehensive analysis possible.
	A2140CASE	High-quality, lightweight, lockable, waterproof, dustproof, and impact resistant Pelican case for protecting and transporting your analyzer and standard accessories from site to site.
	MHM-65139-PBF	Make the most of your windshield time - the AMS 2140 car charger plugs into your car's 12Volt DC adapter and allows you to charge the AMS 2140 battery safely while traveling from site to site.
	A40EXCHRG	Having a spare battery is never a bad thing! Use the external battery charger to charge a spare battery (included) while you are using the AMS 2140 in the field. Swap the battery in the AMS 2140 with the fully charged spare battery on the charger when you need extra run time.
	A40SENHOLDR	No more need to hold the accelerometers in your hand or stuff them in your pocket when collecting your route vibration data with this handy strap mounted dual accelerometer holder. Just thread the AMS 2140 shoulder strap through the accelerometer holder and then attach up to two magnet mounted accelerometers to it for easy and convenient carrying to the next measurement location.
	A40SVMNT	This removable mounting device for the AMS 2140 makes it easy to take the Model 430 SpeedVue laser speed sensor along on route collection, putting precise speed detection at your fingertips! Simple push button attachment to the strap mount holes on either side of the AMS 2140. Convenient 360 degree articulating centerpiece allows you to aim through guards, grates, or other tight spots to get to the machine shaft.
	A21401CHACC	AMS 2140 Single-Channel Accessories Package contains: <ul style="list-style-type: none"> - 1 each A0760GP accelerometer - 1 each D25482 coiled M12 to 2-pin Mil accel cable - 1 each A090835 2-pole magnet
